## **Métis Early Childhood Educator & ECE Assistant Supplement**

Are there Métis ECEs and ECEAs in your Community?

Métis Nation British Columbia values the work that is being done by Early Childhood Educators. Métis Nation British Columbia will provide registered MNBC Citizens, (or those with an active application for MNBC citizenship), a supplement of \$1000.00 for licensed Métis Early Childhood Educators, and a \$500.00 supplement for licensed Métis Early Childhood Assistants (ECEAs) working in a licensed child care program. Compensation has been identified as a critical issue and significant barrier to recruitment and retention across the early learning sector. Providing incentives shows educators that MNBC values the work that is being done in early learning programs.

Applications are now open, and the deadline to apply for the ECE supplement is January 15th, 2023. The supplement will be delivered in February 2023.
