
MONTHLY REPORT

February 2021

Region 7 Report

Tansi, and greetings from the Northeast Region.

February was a wonderful month to host my first Regional Governance Council (RGC) I was pleased to have all four communities participate, as well as our women's representative on Saturday February 6th. We also had Kelly Lake Community Society on as a guest to vote on its application for interim charter status at the upcoming MNGA. The vote was unanimously to accept its request. Also, in February I was able to get a Chromebook laptop and a portable printer for Kelly Lake Community Society donated by Enbridge to assist the community with its membership drive.

The code of conduct that we are using for these meetings: be respectful, encouraging and constructive. come with an open heart to help our Citizens.

During the RGC we chatted about the support from the MNBC's Covid-19 funding and how it has helped the Chartered Communities help its membership. Food, gas card, prescription medication, rent, utilities shoveling walkways for Elders and Christmas presents for children were all benefits that were supplied. This Covid-19 funding is helping build capacity in our communities in the Northeast and overall helps our vulnerable members through this pandemic.

March also was the continuation of Strategic Planning with the entire board as well as meeting to discuss building capacities for our Chartered Communities. It was a Nation building month and I am very pleased to be a part of the positive direction that MNBC is heading towards.

I also participated in two Metis Financial Corp board meetings this month and as always, I look forward to these meetings to help empower our people in entrepreneurship. My work as an advocate for the Northeast is my passion and I would like to see more resources and funding available to help our citizens and to expand our membership numbers.
